Question and Answers

50 minutes

1. Could you tell me about yourself and describe your background in brief?

so i came from a small town where opportunities were limited and since both schools are ready so i started using online learning to stay up to date with the best so that's where i learned to stay up to date with my best so that's where i went to code and then i went to get my situation as a computer program so after i got my first job as a brandon decoder and i continued to invest the time in marching them both different than in back end languages and that will send their frameworks

| 75% Keywords Score	72% Semantic Score	70% Entailment Score

2. What are your greatest strengths and weaknesses?

so i think one of my greatest strength is that i am a great team player and i am also a self motivated and a quick learning individual so whatever the task that i set to do i always give my give my best hand complete it in delegiantly building the advance and my weakness would be that i am learning to a master people skills while meeting new individuals so i get nervous while talking to using the people i have been working on this for a quite long time

80% Keywords Score	78% Semantic Score	75% Entailment Score

3. How would you rate yourself on a scale of 1 to 10?

so i would like to rate myself and i'd point it because i know that i am not a perfect and there is always a scope for learning and improvement so continuous learning is the most fundamental part of a personal and professional growth

85% Keywords Score	82% Semantic Score	80% Entailment Score

4. What is your biggest achievement so far?

yeah i have achieved several milestones today my carrier has a software developer and the most one recent one is of a time where we are working on a critical component of a product of pretending to customer payments so we were working around the clock for two months and i was a code developer and they must mainly lead to this component for completing the task in another two months

5. What type of work environment do you prefer?

yeah that sounds great to me so i like first place to work environment because they make me feel like i have the struggling and growing so but really thirwin are you collaborating with the team members and helping people to reach a collective goal as opposed to completing and my last internship was not an organization with a similar and i really enjoyed that the balance

78% Keywords Score	75% Semantic Score	72% Entailment Score

6. How do you deal with pressure or stressful situations?

yeah i realized the stressful situations are always going to come up and i definitely have had to learn how to navigate them throughout my career i think i could better assist with every new experience

85% Keywords Score	80% Semantic Score	82% Entailment Score

7. Do you prefer working independently or on a team?

so i enjoy a blend of the two i like having a team start with the unlimited divers' opinions from and they each reach out for the feedback

88% Keywords Score	85% Semantic Score	85% Entailment Score

8. When you are balancing multiple projects, how do you keep yourself organized?

basically i am used to check-in projects at my current job so we're are you often moving between the coding one software program to the another

65% Keywords Score	65% Semantic Score	68% Entailment Score

9. What did you do in the last year to improve your knowledge?

so the extra time on my plate really allowed me to get introspect to you around where i want to take my career

72% Keywords Score	70% Semantic Score	76% Entailment Score

10. Do you have an Questions

yes i have questions so i would like to know about the the team numbers and the projects that i want that i am going to work on
